Prayer Request:

My brother in law, Danny's mom - Neomi has been heavenly involved with witchcraft for years and is with a group and was just made head of her group. She lives in Florida. Danny has talked to her about the Lord but she is not receptive. She found out she has lung cancer. Her friends have turned from her. Her sister told her she has her own problems. One of her sons lives in Florida but is not close in distance and is not saved either, so not very supportive. We need to STORM heaven for these demons to leave her. She needs Jesus!!! Danny is asking for all to pray so please pass this along to your churches, prayer friends. Let's be in agreement for these demons to leave her and her to receive Jesus. And to be healed of lung cancer. Danny is all she has right now and she is down there and he is up here. She is scared and it is amazing that Danny is the only person she is crying to. God had a reason for her friends and other family to not be there for her. Pray for the annointing to be upon Danny - the Holy Spirit to give him the words when speaking to his mom. May there be Power in his lips from the Father in heaven who loves Neomi. Thank you and I will keep you posted. Love, Michelle
