Prayer Request:

I believe in the prayers of the righteous to our Father in heaven who can change situations in our lives. I am requesting prayer for my brother Frank who was rushed to the hospital last evening in Newark, NJ with dizziness, nausea and vomiting. Last update--CAT scan showed fluid on his brain. Don't know what is causing the fluid as of yet. Those of you who know the power of prayer, first pray for guidance of the doctors. Pray for my brother's healing. Yours In Christ, Hannah Hello Hannah, We will definitely keep Frank in prayer. God bless you! Brian Fox
